

# How many storage boxes do I need?

## How To Guide

---

Not sure how many boxes you need? A good place to start is by counting how many file drawers you have. Our strong and durable storage boxes can hold about half a drawer filled with standard Letter or Legal sized paper (that's about 2,000-2,500 sheets per box). So, multiply the number of file drawers you have by 2 to get your minimum number of boxes needed.

When we say "file drawer", here's what we mean:

Dimensions of file drawer: 15"w x 25"d

This is what our boxes look like:

Internal Dimensions when empty: 15"l x 12"w x 10"h (actual space available)

External Dimensions: 16.25"l x 12.75"w x 10.25"h (1.2 cubic feet)
